

MUHAMMAD UMAR BASHARAT

WEB DEVELOPER

PAF Base Masroor, Gulbai, Karachi | muhammadumarxy@gmail.com | 0311-2263063

SUMMARY

Motivated and detail-oriented Computer Science Undergraduate with an intermediate understanding of Web development. Passionate about learning and improving technical skills while contributing to real-world projects. Seeking an opportunity to gain practical experience and enhance problem-solving abilities.

EDUCATION

Bachelor of Science in Computer Science (Undergraduate) Feb 2022 - Feb 2026

Sindh Madressatul Islam University (7th Semester)

Expected Graduation: 2026

Saylani Mass IT Training Program Aug 2025 - Continue

Passionately learning Artificial Intelligence and Data Science

Working on Python Language

PROJECTS

Weather App ([Personal Project](#))

- Built a responsive weather application using HTML, CSS, and JavaScript.
- Integrated a third-party Weather API to fetch real-time weather data.
- Implemented features such as location-based search, temperature & condition display, and dynamic icons.
- Focused on clean UI/UX design and optimized code for performance and responsiveness.

Currency Converter ([Personal Project](#))

- Developed a currency converter application using HTML, CSS, and JavaScript.
- Integrated a currency exchange API to fetch and display real-time conversion rates.
- Implemented features such as user input for amount & currency selection, instant conversion, and responsive UI.
- Enhanced skills in API integration, DOM manipulation, and UI/UX design.

Tic Tac Toe Game ([Personal Project](#))

- Built an interactive Tic Tac Toe game using HTML, CSS, and JavaScript.
- Implemented game logic to handle turns, check winning conditions, and detect draws.
- Designed a responsive user interface with a clean and minimal layout.

- Enhanced problem-solving skills through DOM manipulation and event handling

Basic E-commerce Website (Group Project)

- Collaborated with a team to create a simple e-commerce website using HTML, CSS, and JavaScript.
- Assisted in UI design and content structuring.

House Rental Management System (Academic Project)

- Created this Management System in C language.
- Used graphics and Filing in this project

TECHNICAL SKILLS

- Programming Languages: Basic knowledge of Python, Java, C++
- Web Development: Expert in Figma, HTML, CSS, JavaScript, MERN Stack Development
- Databases: Basic understanding of MySQL s
- Tools & Technologies: Git/GitHub, VS Code

EXTRACURRICULAR ACTIVITIES

- Member of the Zindigi Prize SMIU Society, organized SoulFest'2024.
- I participated in university-organized workshops on emerging technologies.
- I volunteered in organizing tech events and assisting peers in basic programming concepts.

SOFT SKILLS

- Strong problem-solving mindset
- Willingness to learn and adapt
- Team collaboration and communication
- Time management and organization
